

To Whom it may concern:
re: nab's petition 04-160

I just wanted to drop you a line and let you know xm is the best thing to happen to radio in a long time. I started listeniing about 1 1/2 yrs ago, and my wife use to complain. After recent events where she had to drive my car, she absolutely loves it, the clarity, music selection, variety, and so on. I think it is my right to get this music and i do not want it interphered with so please do not allow the NAB to flex its muscle and control the way you vote.
sincerely

John J Vingara
